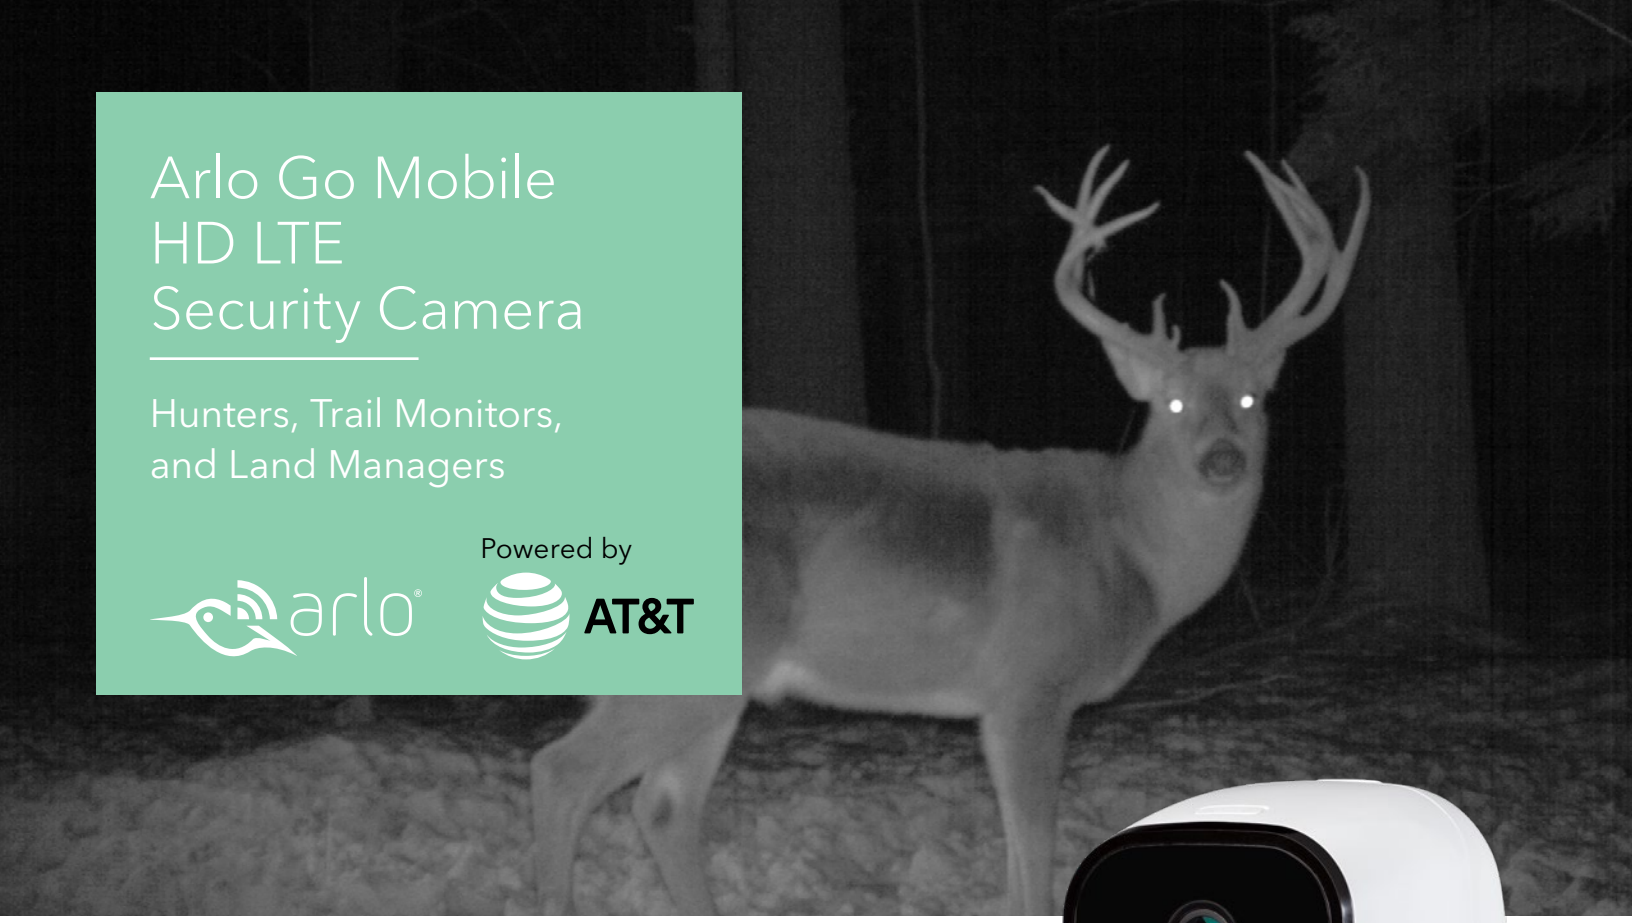
Arlo Go Mobile HD LTE Security Camera

Hunters, Trail Monitors, and Land Managers

Powered by AT&T



Keep eyes out day or night

With Arlo Go's long lasting battery and solar charging accessory, it's easy to monitor trails and wildlife from anywhere. Other trail cams can only store photos or short videos on an SD card which requires getting to the site and physically retrieving the card in order to view and manage your recordings. Arlo Go runs on LTE, so you can monitor the trail from anywhere and use real-time alerts to change at any time from your smartphone anytime and change your course if there is activity to pursue.

View animal activities

- Perform wildlife research to study animal behavior and migration patterns, and compile a record of species.
- Free 7 days of rolling cloud storage and instant alerts on motion or audio makes it easy to quickly assess daily activity patterns.
- Capture wildlife after dark with night vision.
- Watch for overhunting/overfishing.

Hunting

- View animals in the field during different times of the day without disturbing them.
- Locate and identify nocturnal animals with built-in night vision.
- Study migratory and feeding patterns.
- Monitor game species.
- Identify best areas and best times to hunt the species you are seeking.
- Keep an eye on your tree stand year round
- See what the competition is doing on your hunting grounds

Why Choose Arlo

Powered by AT&T

Arlo understands your challenges. You don't need a camera that runs on LTE and can go where other cameras can't to monitor and protect your property. Arlo Go makes it easy and affordable to stream a live-view or receive instant alerts anytime, from anywhere.

- Easy to install, with a selection of mounts and covert accessory skins.
- Free mobile and web apps so you can monitor the trail from anywhere.
- Works anywhere on the AT&T network coverage area*.
- Easily move cameras to new locations based on your needs, with our innovative mounts.
- Recordings are instantly stored in the cloud, so you can view anytime, at your convenience.
- Long lasting rechargeable battery, with optional solar charging accessory, allows Arlo Go to operate anywhere for as long as you need.

*(*Requires compatible device and wireless service plan. Additional restrictions and data charges may apply. Coverage and service not available everywhere. May incur data rates/usage.)*
