

Arlo Go Mobile HD LTE Security Camera

Parking Lot Operators

Keep watch of your lots from anywhere

Arlo Go runs on LTE, so you can get endless coverage in all corners of your parking lots where wired, powered, closed circuit or WiFi cameras do not reach. Give customers peace of mind by placing cameras conspicuously or watch over problem areas covertly. With the Arlo solar panel accessory the Arlo Go camera and rechargeable battery can last almost indefinitely (in typical use).

Prevent vehicle theft

- Monitor parking lots in real-time and dispatch security personnel immediately if anything happens.
- Cameras deter theft and can help law enforcement identify criminals in the event of thefts and vandalism.

Increase public safety

- Increase public security in open or underground garages.
- Ensure active response - two-way audio and instant notifications can alert security guards about a crime in the parking lots.
- Be notified of suspicious behavior before crimes are committed.
- Customers parking their cars in your parking lots will feel reassured knowing there is increased surveillance throughout the property.

Reduce liability

- Video evidence can help you avoid costly lawsuits or liability claims when accidents happen at your parking lots.

Remote access from anywhere

- Check in anytime.
- Schedule recordings.
- Track multiple sites with video streaming video - anywhere, anytime.

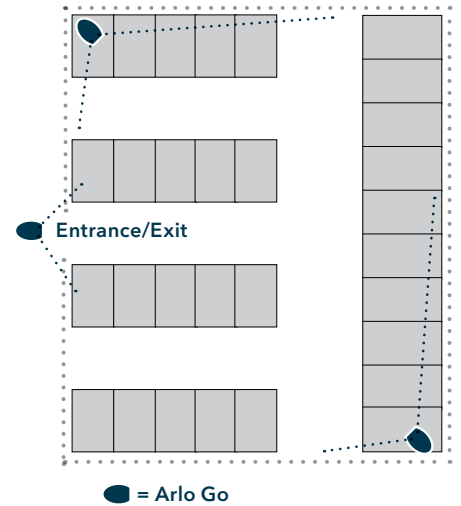

Why Choose Arlo

Arlo understands the challenges you face. You don't have an IT team or a big budget, but that doesn't mean you can't protect your parking lots. Arlo Go makes it easy and affordable to keep your property secured around the clock.

- Easy to install, small equipment size, no back room to maintain.
- Free mobile and web apps so you can monitor your parking lots from anywhere.
- Works anywhere on the AT&T network coverage area*.
- Easily move cameras to new locations, with our innovative mounts.
- No DVRs or tapes to maintain or risk damaging. Recordings are instantly stored in the cloud, so you have the evidence you need.
- Rechargeable Battery: long lasting, takes the expense out of uninterrupted security.

(*Requires compatible device and wireless service plan. Additional restrictions and data charges may apply. Coverage and service not available everywhere. May incur data rates/usage.)

Powered by

Features
