

Arlo Go Mobile HD LTE Security Camera

Ports, Terminals, Warehouses
& Container Yards

Powered by

Watch your property from anywhere

Monitor premises and prevent unauthorized access around cargo handling and storage areas. Arlo Go cameras run on LTE and can work anywhere power, wired internet, or WiFi, giving you flexible placement options and simple wire-free installation. Arlo Go is an easy solution for storage areas or container yards where the odd sizes and shapes of storage units might present challenges for other surveillance camera options.

Prevent storage area tampering

- Arlo Go works without power or wired Internet making it easier for you to install cameras at strategic locations to monitor storage areas around the clock.
- Prevent theft and vandalism at your storage sites. Get instant alerts and be notified if someone goes where they shouldn't be - day or night.
- Track multiple sites with streaming video - anywhere, anytime.
- Keep an eye on remote areas of your yard, and ensure that no one is trespassing or conducting suspicious activity.

Why Choose Arlo

Arlo understands construction. You don't have an IT team or big budgets, but that doesn't mean you can't protect your job sites. Arlo Go runs on LTE and makes it easy and affordable to keep your business secured around the clock.

- Easy to install, small equipment size, no back room to maintain.
- Free mobile and web apps so you can monitor your business from anywhere.
- Works anywhere on the AT&T network coverage area*.
- Easily move cameras to new locations with our innovative mounts.
- No DVRs or tapes to maintain or risk damaging. Recordings are instantly stored in the cloud, so you have the evidence you need.
- Its rechargeable battery is long lasting to take the expense out of uninterrupted security.

*(*Requires compatible device and wireless service plan. Additional restrictions and data charges may apply. Coverage and service not available everywhere. May incur data rates/usage.)*
