

Arlo Go Mobile HD LTE Security Camera

Construction

Powered by
verizon

Keep watch of your job sites from anywhere

Construction sites can face a unique range of safety and security issues, including accidents, vandalism, and theft. Unlike other cameras, Arlo Go can work virtually anywhere—without power, wired internet, or WiFi. It's the most convenient solution for any construction site. Helping deliver safety, worker efficiency, and peace of mind—every worksite should have an Arlo Go camera.

Prevent theft, day or night

Losses from construction site theft amount to over \$1 billion every year. Make Arlo Go your after-hours security patrol.

- Protect your assets and reduce thefts and vandalism at your site.
- Receive instant alerts any time someone goes where they shouldn't be.

Provide a safer workplace

- Check in any time to see if workers are following safety protocols.
- Review cloud recordings and stored footage to identify and prevent hazards at the site, and plan proactive risk mitigation steps.

Lower insurance costs

- Reduce liability by using camera recordings as evidence in the event of crimes or accidents.

Monitor construction process

- Check on stages and shifts throughout the construction process.
- Plan schedules based on weather conditions, material deliveries and more.
- Communicate instantly over two-way audio.
- Let stakeholders track project progress remotely.

Remote access from anywhere

- Check in anytime.
- Schedule recordings.
- Track multiple sites with streaming video—anywhere, anytime.

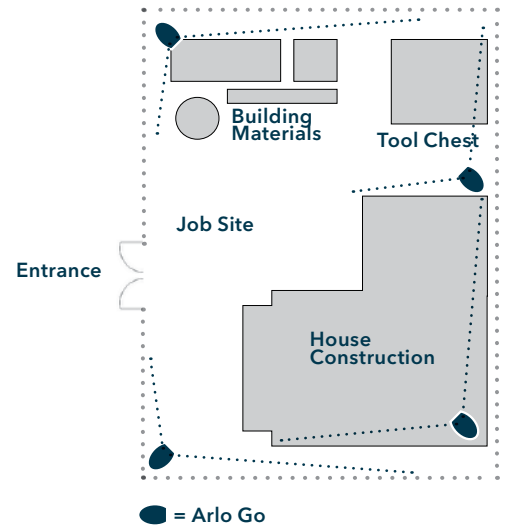

Why Choose Arlo

Powered by
verizon[✓]

Arlo understands construction. You don't have an IT team or big budgets, but that doesn't mean you can't protect your job sites. Arlo Go runs on LTE and makes it easy and affordable to keep your business secured around the clock.

- Easy to install, small equipment size, no back room to maintain.
- Free mobile and web apps so you can monitor your business from anywhere.
- Works anywhere on the Verizon network coverage area*.
- Easily move cameras to new locations with our innovative mounts.
- No DVRs or tapes to maintain or risk damaging. Recordings are instantly stored in the cloud, so you have the evidence you need.
- Its rechargeable battery is long lasting to take the expense out of uninterrupted security.

*(*Requires compatible device and wireless service plan. Additional restrictions and data charges may apply. Coverage and service not available everywhere. May incur data rates/usage.)*
